

BORLAND PRODUCT SPECIAL TERMS

References to “you”, “your” or “Licensee” herein shall mean EU for purposes of the Agreement and “Product” or “Borland Product” shall refer to the Borland Product as identified in Exhibit A.

1. Special Terms Applicable to All Products:

Subject to the terms and conditions of this Agreement, the limited license provided to you under this Agreement allows you to use the Product solely to create your own application programs and other works (“Works”).

ADDITIONAL LICENSE TERMS APPLICABLE TO UPGRADES

If you have purchased an upgrade version of the Product, it constitutes a single product with the copy of the Product that you upgraded. This means that, although you may have two sets of Product media, you still have only one license. Therefore, you may not transfer the original copy of the Product to any other party.

ADDITIONAL LICENSE TERMS APPLICABLE TO THIRD PARTY SOFTWARE

Certain components of the Product use or incorporate third-party software programs and/or libraries (“Third-Party Software”) which are loaded (in both object and source code form) on the Product media. You agree that Borland’s third-party licensors and suppliers are intended third party beneficiaries of all terms and conditions of this Agreement intended to protect intellectual property rights in the Product (including the Third-Party Software) and limit certain uses thereof. Since use of Third Party Software might be subject to license restrictions imposed by the third party vendor, you should refer to the on-line documentation (if any) provided with Third Party Software for any license restrictions imposed by the third party vendor. In any event, any license restrictions imposed by a third party vendor are in addition to, not in lieu of, the terms and conditions of this Agreement.

ACCOMPANYING PRODUCTS

The Product may be accompanied by another Borland product (“Accompanying Product”) and its component parts. (The Accompanying Product(s) are set forth in the table below.) These Accompanying Products do not constitute a part of the Product. These Accompanying Products are subject to separate license terms which are on the media containing the Accompanying Products and which may be viewed and accepted at the time the Accompanying Products are installed. You have no rights under this Agreement to use any software other than the Products, and your use of the Accompanying Products may require you to purchase separate licenses and obtain separate License Key Certificates.

Accompanying Product
<ul style="list-style-type: none">• BORLAND ENTERPRISE SERVER (including but not limited to Visibroker, AppServer, and Borland Enterprise Server Web Edition)
<ul style="list-style-type: none">• Janeva• JDataStore• Interbase

2. Special Terms that apply to Borland JBuilder, Delphi, Kylix, C++ Builder, C# Builder, Janeva, JDatastore, Borland Enterprise Server, Visibroker, AppServer and Team Edition:

GENERAL TERMS THAT APPLY TO COMPILED PROGRAMS AND REDISTRIBUTABLES.

Redistributables. The Product may include certain files, libraries and/or source code specifically designated as “redistributables” by Borland in the accompanying printed or on-line documentation and that are necessary to use Works created using the Product (“Redistributables”). From time to time, Borland

may designate other files as Redistributables. You should refer to the documentation, including any "readme" or "deploy" files provided with the Product, for additional information regarding Redistributables. Subject to the terms and conditions of this Agreement, you may freely redistribute source code or compiled code that is entirely your own and does not contain any Redistributables.

Licensing of Redistributables. Subject to the terms and conditions of this Agreement including the restrictions of this Section, Borland grants you the personal, non-exclusive, non-transferable and limited license to: (a) make exact copies of the Redistributables and distribute those copies solely as components of your Works and solely as required for permitting end users of the Works ("End Users") to install and execute the Works; (b) install and execute Redistributables, without modification, on computers that you own or possess solely for your own internal use; and (c) sublicense to your End Users the personal, non-exclusive, non-transferable right to install and execute Redistributables, without modification, solely as components of Works and solely for such End Users' own internal use, subject to End Users' compliance with the restrictions in the Agreement as to Redistributables. The rights granted to you under the above paragraph may not be exercised by others, including co-developers, regardless of how you might compile, link, or package your Works. These rights apply only to Redistributables and to no other file, library, source code or other component or derivative work of the Product. They may be exercised only with respect to Works created by you using a duly licensed, properly registered copy of the Product.

Certain Restrictions. Regardless of any modifications that you make and regardless of how you might compile, link, or package your Works: (a) you may not permit your End Users to modify or further distribute Redistributables or use Redistributables in any program that they create; (b) you may not use Borland's or any of its suppliers' names, logos, or trademarks to market your Works, except to state descriptively that your Work was written using the Product; (c) you may not incorporate or distribute a Redistributable with a Work or other program that is capable of functioning as a general purpose development tool, library, or component, or is otherwise generally competitive with or a substitute for the Product or the Redistributable itself; (d) all copies of the Works you create must bear a valid copyright notice, either your own or the Borland copyright notice that appears on the Product, and you may not remove or alter any Borland copyright, trademark or other proprietary rights notice contained in any portion of the Redistributables; and (e) you may only distribute Redistributables with Works that add primary and substantial functionality to the Redistributables and are not merely a set or subset of any of the Redistributables, and that are created in accordance with the terms of this Agreement.

Relationship with End Users. Except as set forth in this Exhibit, there are no third party beneficiaries to this Agreement. Consequently, Borland provides no warranty at all to any person, other than the limited warranty provided to you the original purchaser of the Product, as set forth herein, and you will be solely responsible to your End Users (or anyone else who uses or acquires Works) for support, service, upgrades, or technical or other assistance (including with respect to any Redistributables included therein), and such persons will have no right to contact Borland for any services or assistance. You will indemnify, defend and hold Borland, its licensors, its suppliers and each of their respective employees, officers, directors and affiliates, harmless from and against any claims or liabilities arising out of or related to the use, procurement, reproduction or distribution of your Works by third parties.

Other Rights. Contact Borland for the applicable royalties due and other licensing terms for all other uses or distribution of the Redistributables.

3. Additional Special Terms Applicable to JBuilder, Together Control Center, Optimizeit Suite and C++Builder

LICENSE TERMS FOR LICENSE MANAGER. Subject to the terms and conditions of the Agreement, Borland grants to Licensee as the licensed user of the Borland Product the limited right to use that portion of the Borland Product identified as "License Manager", in executable form only, on a server for use with the Borland Product.

4. Special Terms Applicable to JBuilder and Borland Enterprise Server (AppServer and VisiBroker):

ADDITIONAL LICENSE TERMS FOR API DECOMPILER

Notwithstanding the prohibition hereunder against decompiling the Borland Product, Borland grants to Licensee as the licensed user of the Borland Product the limited right to use that portion of the Borland Product identified as "API Decompiler" for inspecting the public application programming interface (API) of the JAVA BEANS COMPONENT LIBRARY, DATAEXPRESS, DBSWING and OPENTOOLS API modules.

5. Special Terms Applicable to JBuilder:

ADDITIONAL LICENSE TERMS FOR PREMIUM TOOLS Plug-ins for JBuilder

Notwithstanding any separate agreement Licensee may have for the provision of support, the file identified as Premium Tools Plug-ins for JBuilder that are provided on the same media as the Borland Product is not supported by Borland.

ADDITIONAL LICENSE TERMS FOR IBM'S PUBLIC LICENSE AND COMMON PUBLIC LICENSE *(applicable to UDDI4J and WSDL4J, and JUNIT components of JBuilder)*

- a) Borland disclaims on behalf all contributors to UDDI4J, WSDL4J and JUNIT all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
- b) Borland excludes on behalf of all contributors to UDDI4J, WSDL4J and JUNIT all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;
- c) Any provisions offered by this Agreement which differ from this IBM Public License or IBM Common Public License are offered by Borland alone and not by any other contributor to UDDI4J, WSDL4J and JUNIT; and d) source code for UDDI4J, WSDL4J and JUNIT is available from Borland, if applicable.

ACCOMPANYING PRODUCTS FOR JBUILDER- JDATASTORE. The portion of the Borland Product identified as JDATASTORE (if any) is not a Redistributable. Notwithstanding any provision herein to the contrary, Licensee may only use JDATASTORE under this Agreement to develop, compile and test Works and for no other purpose. Licensee must purchase a separate JDATASTORE deployment license from Borland or an authorized reseller for each copy of any Work that Licensee deploys if the Work incorporates, or requires use of, JDATASTORE or includes the files "jds.jar" or "jdsserver.jar." Licensee is not permitted to reproduce JDATASTORE for sublicensing, resale, lending, leasing, deployment or distribution to any party, including without limitation, distributing JDATASTORE as part of a VAR, OEM, distributor or reseller arrangement. If you integrate JDATASTORE or the files "jds.jar" or "jdslicense.jar" into a Work and intend to distribute or resell the resulting integrated Work, Licensee must contact Borland to obtain the appropriate distribution license.

6. Special Terms Applicable to Starteam and Caliber RM:

LICENSE TERMS FOR ENFORCEMENT OF LICENSING AGREEMENT. This Borland Product contains algorithms (referred to as a "Monitor") that will restrict the usage of the Borland Product by more than the appropriate number of licensed users and ensure compliance with this Agreement. The Monitor does not disable the use of the Borland Product, only the number of users logged on at any one time. The Product Monitor provides reporting capabilities which permit Licensee to determine your adherence to the terms of this Agreement. Regardless of the inclusion of the Monitor, it is Licensee's responsibility to ensure compliance with the license restrictions and number of users permitted pursuant to this Agreement.

LICENSE TERMS FOR EXTERNAL TOOLS - The use of one or more external tools, including multiplexors or replicators, to reduce the number of users directly connected to the Borland Product shall not exempt Licensee from acquiring licenses for all users. For example, if Licensee uses multiplexing or connection pooling software or hardware to reduce the number of users directly connected to the Borland Product, the number of Named Users or Concurrent Users within your organization using the Borland Product shall be measured as the number of distinct inputs to the multiplexing or connection pooling front end and Licensee shall purchase the equivalent number of Named User or Concurrent User Licenses. If

License uses replicator software, Licensee may not use the Borland Product to share licenses in any way not explicitly provided for in this Agreement. Licensee may not use a multiplexor or replicator with this Agreement.

THIRD PARTY SOFTWARE IN GENERAL. Portions of the Borland Product are licensed from and are copyrighted by Microsoft Corporation and RSA Data Security.

Licensee may use the Borland Product in conjunction with other third party software applications not part of the Borland Product. If so, Licensee may require separate licenses for those third party applications in addition to this Agreement.

THIRD PARTY SOFTWARE USING THE SDK APPLICATION PROGRAMMING INTERFACES ("PRODUCT APIs"). Any user of any client or server application that calls any Product APIs must have a valid Borland Product license to connect to the Borland Product server software. Licensee may not, and Licensee may not allow others to reverse engineer, decompile, or disassemble the Product APIs. Commercial redistribution of any products that include Product APIs requires a separate redistribution license and such license is not granted in this Agreement.

7. Special Terms Applicable to Borland Enterprise Server (BES), AppServer Edition, VisiBroker Edition and Team Edition:

ADDITIONAL LICENSE TERMS FOR VISIBROKER, APPSERVER AND TEAM EDITION

The portion of the Borland Product identified as VISIBROKER, APPSERVER and/or TEAM EDITION are not a Redistributable and are licensed for development purposes only. Notwithstanding any provision herein to the contrary, Licensee may only use VISIBROKER, APPSERVER and/or TEAM EDITION under this Agreement for developing, compiling and testing Works and for no other purpose. Licensee must purchase a separate VISIBROKER, APPSERVER and/or TEAM EDITION deployment license from Borland or an authorized reseller before deploying any Work that incorporates, or requires use of, VISIBROKER, APPSERVER and/or TEAM EDITION. Licensee is not permitted to reproduce VISIBROKER, APPSERVER and/or TEAM EDITION for sublicensing, resale, lending, leasing, deployment or distribution to any party, including without limitation, distributing VISIBROKER, APPSERVER and/or TEAM EDITION as part of a VAR, OEM, distributor or reseller arrangement. If Licensee integrates VISIBROKER, APPSERVER and/or TEAM EDITION into a Work and intends to distribute or resell the resulting integrated Work, Licensee must contact Borland to obtain the appropriate distribution license.

ADDITIONAL LICENSE TERMS FOR BORLAND VISISECURE, VISITRANSACT AND VISINOTIFY

The portion of the Borland Product identified as BORLAND VISISECURE, VISITRANSACT OR VISINOTIFY, is not a Redistributable and is included on the Borland Product media for your convenience only. Notwithstanding any provision herein to the contrary, this Agreement does not permit you to execute, or otherwise use the BORLAND VISISECURE, VISITRANSACT OR VISINOTIFY portion of this Borland Product for any purpose. Licensee must purchase a separate Development and/or Deployment License for BORLAND VISISECURE, VISITRANSACT OR VISINOTIFY directly from Borland before developing or deploying any Work that uses such portion of the Borland Product. Licensee is not permitted to reproduce BORLAND VISISECURE, VISITRANSACT OR VISINOTIFY for sublicensing, resale, lending, leasing, deployment or distribution to any party, including without limitation, distributing VISISECURE, VISITRANSACT OR VISINOTIFY as part of a VAR, OEM, distributor or reseller arrangement. If Licensee integrates BORLAND VISISECURE, VISITRANSACT OR VISINOTIFY into a Work and intends to distribute or resell the resulting integrated Work, Licensee must contact Borland to obtain the appropriate distribution license.

8. Special Terms Applicable to Borland Enterprise Server (BES), AppServer Edition, VisiBroker Edition and Team Edition; and Borland Op-Center:

ADDITIONAL LICENSE TERMS FOR SONICMQ – JAVA TECHNOLOGY RESTRICTIONS

The following Java Technology Restrictions are applicable to the component of the Borland Product identified as SonicMQ: Licensee may not modify the Java Platform Interface ("JPI", identified as classes contained within the "java" package or any subpackages of the "java" package), by creating additional classes within the JPI or otherwise causing the addition to or modification of the classes in the JPI. In the event that Licensee otherwise creates an additional class and associated API(s) which (i) extends the functionality of a Java platform, and (ii) is exposed to third party software developers for the purpose of developing additional software which invokes such additional API, Licensee must promptly publish broadly an accurate specification for such API for free use by all developers. Licensee may not create, or authorize other licensees to create additional classes, interfaces, or subpackages that are in any way identified as "java", "javax", "sun" or similar convention as specified by Sun in any class file naming convention.

This product includes code licensed from RSA Data Security.

ADDITIONAL LICENSE TERMS FOR APACHE SOFTWARE

The Borland Product or third party products or components included with or in the Borland Product may include software developed by the Apache Software Foundation (<http://www.apache.org/>). Copyright © 1999-2000 The Apache Software Foundation. All rights reserved. The names "Xerces", "Tomcat", "Apache" and "Apache Software Foundation" must not be used to endorse or promote products derived from the software developed by the Apache Software Foundation without prior written permission. Products derived from the software developed by the Apache Software Foundation may not be called "Apache", nor may "Apache" appear in their name, without prior written permission. For written permission, please contact apache@apache.org.

ADDITIONAL LICENSE TERMS FOR GNU COMPONENT(S)

No GNU public license or similar open source licenses contained within the Product or any third party products or components included with or in the Product shall be removed or modified and no proprietary rights notices or agreements accompanying the Product or any third party products or components included with or in the Product shall be deleted.

ADDITIONAL LICENSE TERMS FOR TIBCO COMPONENT(S)

The Product or third party products or components included with or in the Borland Product may include TIBCO software. Licensee may not use or reference the TIBCO products to create any computer software program or documentation which is similar to or competitive with the licensed TIBCO products. Any use of or access to TIBCO software may only be accomplished through the Borland Product and Licensee may not access the TIBCO software directly.

ADDITIONAL LICENSE TERMS FOR jUDDI COMPONENT(S)

The Borland Product or third party products or components included with or in the Borland Product may include jUDDI software. jUDDI software is copyright 2003 Steve Viens and contributors. All rights reserved. Redistributions of source code must contain the above copyright notice, this list of conditions and the disclaimer at the end of this paragraph. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the disclaimer at the end of this paragraph in any documentation and/or other materials provided with the distribution. Neither the name of Steve Viens nor the names of its contributors may be used to endorse or promote products derived from this software without specific prior written permission. THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT HOLDERS OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

ACCOMPANYING PRODUCT - JDATASTORE LICENSED UNDER BORLAND ENTERPRISE SERVER (BES)

The portion of the Borland Product identified as JDATASTORE (if any) is not a Redistributable. Notwithstanding any provision herein to the contrary, Licensee may only use JDATASTORE under this Agreement to develop, compile and test Works and for no other purpose. Licensee must purchase a separate JDATASTORE deployment license from Borland or an authorized reseller for each copy of any Work that you deploy if the Work incorporates, or requires use of, JDATASTORE or includes the files "jds.jar" or "jdsserver.jar."

If Licensee has purchased a Deployment License, with each Deployment License purchased for Borland Enterprise Server, AppServer Edition, Borland Enterprise Server, Team Edition, Borland Enterprise Server, Visibroker Edition or Borland Enterprise Server, Web Edition, Borland grants Licensee a personal, nonexclusive, nontransferable and limited license to install and execute JDATASTORE for use solely by the edition of the Borland Enterprise Server that Licensee has purchased the Deployment License for, on one (1) computer ("Local Server") solely for Licensee's own internal data processing purposes to provide an unlimited number of local support connections. A "local support connection" is a communication session between JDATASTORE, as resident on the Local Server, and a copy of the licensed Work that is also executing on the Local Server and that is used solely for your internal data processing needs.

Licensee must purchase a separate JDATASTORE deployment license from Borland or an authorized reseller for each copy of any Work that you deploy if the Work incorporates, or requires use of, JDATASTORE or includes the files "jds.jar" or "jdsserver.jar" and works in conjunction with a software product other than Borland Enterprise Server.

In the event Licensee purchases a deployment license for Borland Enterprise Server, Team Edition, you shall be entitled to one Server License to JDATASTORE with twenty-five (25) support connections.

ADDITIONAL LICENSE TERMS FOR jFreeChart COMPONENT(S) LICENSED UNDER BORLAND OP-CENTER

In Borland Deployment Op-Center, Borland uses an open source library called jFreeChart, which is licensed under the standard "GNU Lesser General Public License".

9. Special Terms Applicable to JDatastore

The portion of the Borland Product identified as JDATASTORE (if any) is not a Redistributable. Notwithstanding any provision herein to the contrary, Licensee may only use JDATASTORE under this Agreement to develop, compile and test Works and for no other purpose. Licensee must purchase a separate JDATASTORE deployment license from Borland or an authorized reseller for each copy of any Work that you deploy if the Work incorporates, or requires use of, JDATASTORE or includes the files "jds.jar" or "jdsserver.jar." Licensee is not permitted to reproduce JDATASTORE for sublicensing, resale, lending, leasing, deployment or distribution to any party, including without limitation, distributing JDATASTORE as part of a VAR, OEM, distributor or reseller arrangement. If Licensee integrates JDATASTORE or the files "jds.jar" or "jdslicense.jar" into a Work and intends to distribute or resell the resulting integrated Work, you must contact Borland to obtain the appropriate distribution license.

In the event Licensee purchases a deployment license, the total number of Borland Product copies used by Licensee and the manner in which such copies are used may not exceed or deviate from the type and number of licenses acquired by Licensee and the usage parameters indicated on your invoice (i.e, type of platform, number of CPUs, or number of concurrent users, and number of local support connections or support connections).

10. Special Terms Applicable to Borland C# Builder Architect and Borland C# Builder Enterprise Edition

ACCOMPANYING PRODUCT FOR C# BUILDER - INTERBASE.

The portion of the Borland Product identified as InterBase is not a Redistributable and is licensed for development purposes only. This Agreement does not permit Licensee to use the InterBase portion of this Borland Product for any commercial, business, governmental institutional or other purpose of any kind, other than development and testing of Works. Licensee must purchase a separate InterBase deployment license from Borland before deploying or distributing any Work that uses InterBase.

ACCOMPANYING PRODUCT FOR C#BUILDER- JANEVA. The portion of the Borland Product identified as JANEVA is not a Redistributable and is licensed for development purposes only. This Agreement does not permit you to use the JANEVA portion of this Borland Product for any commercial, business, governmental, institutional or other purpose of any kind, other than development and testing Works. Licensee must purchase a separate JANEVA deployment license from Borland before deploying or distributing any Work that uses JANEVA.

11. Special Terms Applicable to Delphi

ACCOMPANYING PRODUCT FOR DELPHI - INTERBASE. The portion of the Borland Product identified as InterBase is not a Redistributable and is licensed for development purposes only. This Agreement does not permit Licensee to use the InterBase portion of the Borland Product for any commercial, business, governmental institutional or other purpose of any kind, other than development and testing of Works. Licensee must purchase a separate InterBase deployment license from Borland before deploying or distributing any Work that uses InterBase.

BORLAND DELPHI FOR THE MICROSOFT .NET FRAMEWORK ARCHITECT AND BORLAND DELPHI FOR THE MICROSOFT .NET FRAMEWORK ENTERPRISE - Subject to the terms and conditions of the Agreement, Borland grants Licensee as the licensed user of the Borland Product the limited right to use that portion of the Borland Product identified as Borland Data Provider ("BDP"), in executable form only, to access either a local database installed on the same machine as the Borland Product or on a server for use with the Borland Product.

BORLAND DELPHI FOR THE MICROSOFT .NET FRAMEWORK PROFESSIONAL - Subject to the terms and conditions of the Agreement, Borland grants Licensee as the licensed user of the Borland Product the limited right to use that portion of the Borland Product identified as "BDP", in executable form only, to access a local database installed on the same machine as the Works. Licensee may not use that portion of the Borland Product identified as "BDP" in association with a database located on a different machine other than the machine on which the Works are installed.

12. Special Terms Applicable to Kylix

SPECIAL TERMS THAT APPLY TO KYLIX ENTERPRISE EDITION, KYLIX PROFESSIONAL EDITION

GPL DISTRIBUTION OPTIONS

Licensee may distribute Works under the terms of the GNU General Public License subject to the restrictions set forth in this section and the other terms and conditions of this Agreement. Licensee's right to distribute Works under this Agreement is subject to Licensee's compliance with the following restrictions: (i) distribution of the Protected Packages (as defined below) under GPL is strictly prohibited, and (ii) distribution of the Dual License Packages (as defined below), whether internal or public, must be subject to the terms of the GNU General Public License which can be found at www.borland.com/kylix/gpl.html. "Protected Packages" and "Dual License Packages" are those components of the Borland Product that are identified as Protected Packages or Dual License Packages, respectively, in the `deploy.txt` file found on the Borland Product CD or at www.borland.com/kylix/deploy.html.

ACCOMPANYING PRODUCT FOR KYLIX - BORLAND ENTERPRISE SERVER WEB EDITION

The portion of the Borland Product identified as BORLAND ENTERPRISE SERVER WEB EDITION is not a Redistributable and is licensed for development purposes only. This Agreement does not permit Licensee to use the BORLAND ENTERPRISE SERVER WEB EDITION portion of the Borland Product for any commercial, business, governmental, institutional or other purpose of any kind, other than development and testing Works. Licensee must purchase a separate BORLAND ENTERPRISE SERVER WEB EDITION deployment license from Borland before deploying or distributing any Work that uses BORLAND ENTERPRISE SERVER WEB EDITION.

ACCOMPANYING PRODUCT FOR KYLIX – INTERBASE. The portion of the Borland Product identified as InterBase is not a Redistributable and is licensed for development purposes only. This Agreement does not permit Licensee to use the InterBase portion of this Borland Product for any commercial, business, governmental institutional or other purpose of any kind, other than development and testing of Works. Licensee must purchase a separate InterBase deployment license from Borland before deploying or distributing any Work that uses InterBase.

ADDITIONAL LICENSE TERMS THAT APPLY TO THE USE OF THE QT LIBRARY

Restrictions on CLXDisplay API (Qt unit) usage.

The Qt unit (Qt.pas and Qt.hpp) is the interface to the Qt runtime. The unmodified Qt unit as supplied by Borland is the only commercially licensed means to access functionality in the Qt runtime.

The Qt unit is only licensed for use in VisualCLX applications or a component that derives from TControl in the QControls unit. A VisualCLX application is an application that uses the TApplication object and uses at least one component derived from TControl. Licensee is not licensed to use the Qt unit to create applications or components that exclusively call the Qt unit interfaces.

The above restrictions do not apply to Works licensed under the GPL. A separate commercial development license from Trolltech is required for use of the Qt unit in any manner other than authorized above.

SPECIAL TERMS THAT APPLY TO KYLIX ENTERPRISE EDITION only.

ADDITIONAL LICENSE TERMS FOR DEPLOYING MULTI-TIER WORKS

The Enterprise Edition of the Borland Product include redistributable files identified as "ClientDataset Redistributables" in the "readme" or "deploy" files for creating multi-tier and client/server application Works. A valid license of Kylix Enterprise includes the right to develop, install and deploy the ClientDataset Redistributables as part of Licensee's Work for the purpose of supporting data sharing among two or more computers.

"Data sharing" refers to any use of the ClientDataset Redistributables, including but not limited to DataSnap Middleware Drivers, for supporting the transmission, by any means, of data from one computer to another for use by ClientDataset Redistributables installed on another computer that get resolved back to the original datastore.

The DataSnap Middleware driver is identified in the CLX framework as TSOAPconnection.

ACCOMPANYING PRODUCT FOR KYLIX – VISIBROKER (Enterprise Edition Only)

The portion of the Borland Product identified as VISIBROKER is not a Redistributable and is licensed for development purposes only. This Agreement does not permit Licensee to use the VISIBROKER portion of this Borland Product for any commercial, business, governmental, institutional or other purpose of any kind, other than development and testing Works. Licensee must purchase a separate VISIBROKER deployment license from Borland before deploying or distributing any Work that uses VISIBROKER.

SPECIAL TERMS THAT APPLY TO KYLIX PROFESSIONAL EDITION only.

ADDITIONAL LICENSE TERMS FOR DEPLOYING LOCAL DATABASE WORKS

The Professional Edition of this Borland Product includes redistributable files identified as "ClientDataset Redistributables" in the "readme" or "deploy" files for creating local database application Works. A valid license of Kylix Professional includes the right to the develop, install and deploy an unlimited number of the ClientDataset Redistributables as a part of your Work for the purpose of supporting local data access on a single computer. "Local data access" refers to the act of communicating between the Work, as resident on a single computer, and the ClientDataset Redistributables that are also executing on the same computer to access data on the same computer.

The Professional Edition of this software does not include the right to use "ClientDataset Redistributables" for the purpose of creating multi-tier or client/server Works. However you may deploy a Work that uses the "briefcase" mode for manually sharing data across computers with ClientDataset Redistributables (e.g. you may copy the datastore onto tangible media and physically move the datastore to another computer).

13. Special Terms Applicable to Interbase

TERMS THAT APPLY TO PROGRAMS COMPILED WITH THE SOFTWARE

Licensee may write, compile and use your own applications ("Application(s)") using the Borland Product including the InterClient/Interserver JDBC ("InterClient Software") and any libraries and source code included with the Borland Product and Licensee may distribute and authorize third parties to distribute the Applications; provided, however, that (a) your Application is a product which operates in conjunction with the Borland Product, (b) Licensee does not use any of Borland's or its licensors' or suppliers' name, logos or trademarks, or any names, logos or trademarks of any product of Borland (including the Software) or its licensors or suppliers to market the Application or any of your associated software product(s), (c) Licensee include Borland's copyright notice as part of the sign-on message for the Application or any of Licensee's associated software product(s), (d) Licensee agrees to indemnify, hold harmless, and defend Borland and its licensors and suppliers from and against any claims or lawsuits, including attorney's fees, that arise out of your writing, compiling, use or distribution of your Application or any of Licensee's associated software product(s), and (e) Licensee's Application or any of your associated program(s) is not merely a set or subset of the Borland Product or any libraries or source code included with the Borland Product.
